

Course Graphics

Throughout the videos used in the course you will see different graphics used to highlight instructions or draw your attention to the area of the screen that is changing. This guide is designed to explain their use.

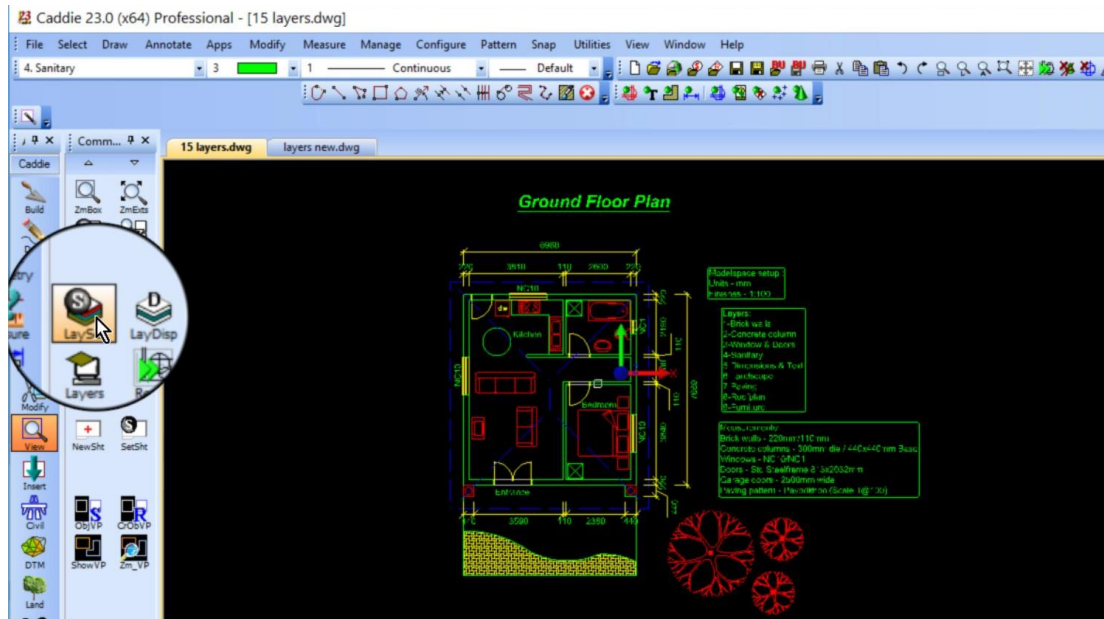

To help you follow the commands that are being used, red boxes are drawn around the Top menu, followed by yellow highlighting on the dropdown menus.

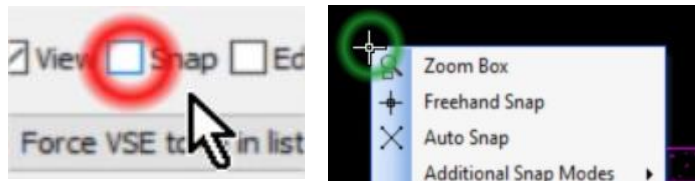

The Context Sensitive Menu is accessed by right clicking the mouse in the drawing area, only yellow highlighting is used in the menu.

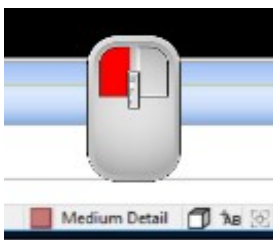

A magnification of the pointer is used to show the icon or command that is being used or shown.

Mouse clicks are illustrated with a red circle for left click and a green circle for right click.

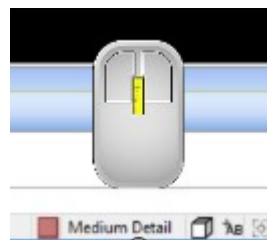

Additional mouse graphics are also used for emphasis.

Left Click

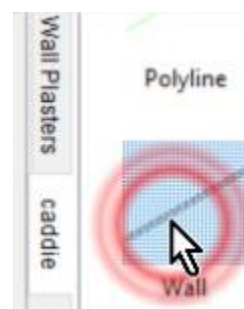

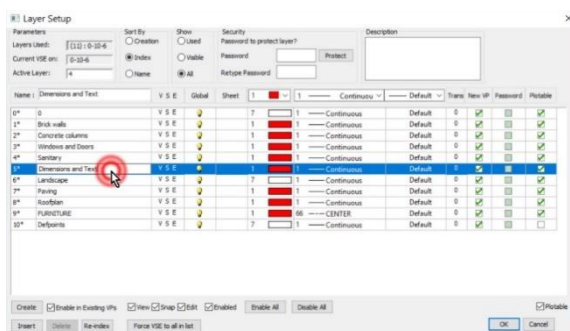

Right Click

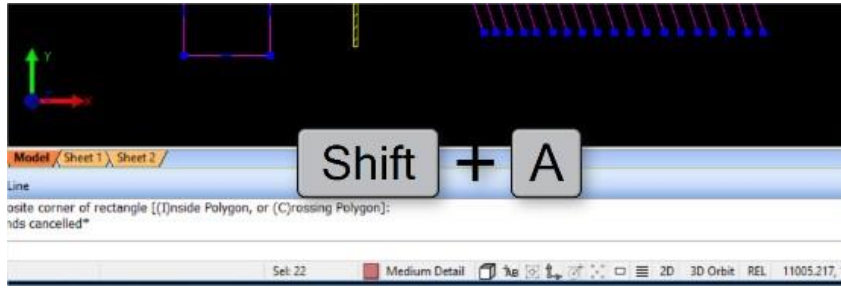

Scroll, click or hold down the mouse wheel

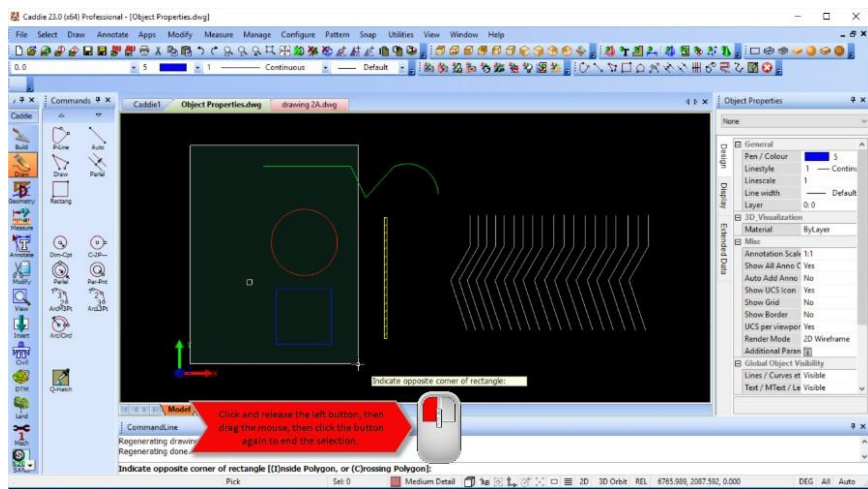

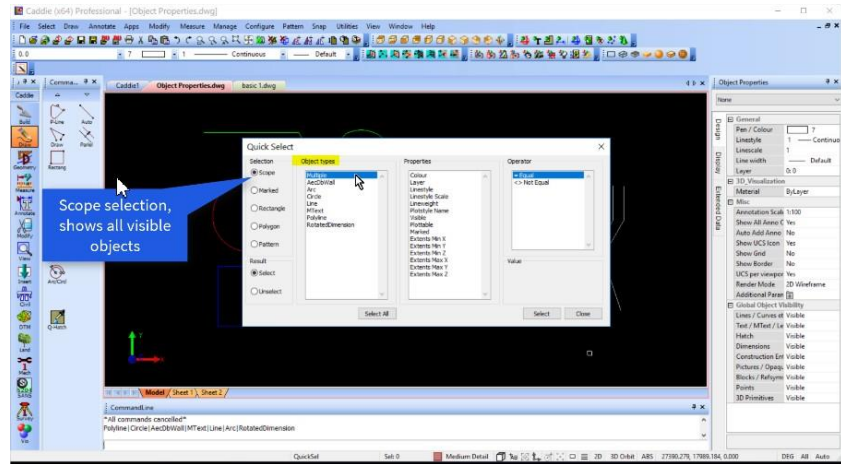

When double clicks are used you will notice a double line to the circle that illustrates a mouse click

Keyboard shortcuts are displayed where they are used

Blue or red call out boxes are used to add additional information.

Red boxes are also drawn to emphasis the demonstration, shown here around the Command Line and Pointer Command Line prompt.
